E-learning is the answer to the needs of post-modern society:
- Knowledge and Training throughout life.

Edu2 sits on the MoonPortal platform (Multiuse Portal) and allows users a set of functions which are uncommon in applications of this type.

You can learn at a distance, on your computer, at a click of a button

Minimum requirements

- Internet connection
- Version 5 Navigator
- Resolution 800x600

Technology

PHP + MySQL

You can access Edu2 with your computer...
all you need is the Internet!
