

TRAINING ADMINISTRATION

The best solution to Organise your Training

Manages the entire training process from the management of people/companies, to the organisation process of training sessions until the final evaluation

- Training management administered to all sides of the training process such as publishing, selection, enrolment, registration and evaluation.

- Training Management Reports available to all those who are part of the Training process (Trainers, Trainees or Training Agencies)

- Multilingual through user login

- Hierarchical access

- Benefit automatically from all of the application upgrades at no extra cost (when the application is installed on our servers).

- Flexibility in adapting it to the company's working scheme (does not force alterations in existing working methods)

- Online enrolment

- Integrates Online Tests, making it possible to evaluate trainees at a distance with advantages in costs and speed
